LESSON 2 • MATH IN DAILY LIFE

Numbers & Numerals at the Museum

VOCABULARY OVERVIEW

Eight Key Math Terms

1. Natural number
Counting numbers like 258.

2. Decimal system
Base-10 number system.

3. Digit
Single symbol from 0 to 9.

4. Place value
Value based on position.

5. Hundreds place
Third digit from right (200).

6. Tens place
Second digit from right (50).

7. Ones place
Rightmost single digit (8).

8. Roman numeral
Ancient symbols I, V, X.

At the History Museum Gate

Natural number • Decimal system • Digit

Minh: "Our ticket number is 258—a **natural number**!"

Lan: "In the **decimal system**, it uses three **digits**: 2, 5, and 8."

Inspecting Ticket #258

Hundreds • Tens • Ones place • Place value

Minh: "2 is in the **hundreds place**, 5 is in the **tens place**, and 8 is in the **ones place**.

Lan: "Each digit has a different **place value**!"

DECIMAL SYSTEM BREAKDOWN

How Place Value Works in 258

Hundreds place	Tens place	Ones place
2	5	8
Place value = 200	Place value = 50	Place value = 8

The Giant Antique Clock

Roman numeral • Digit

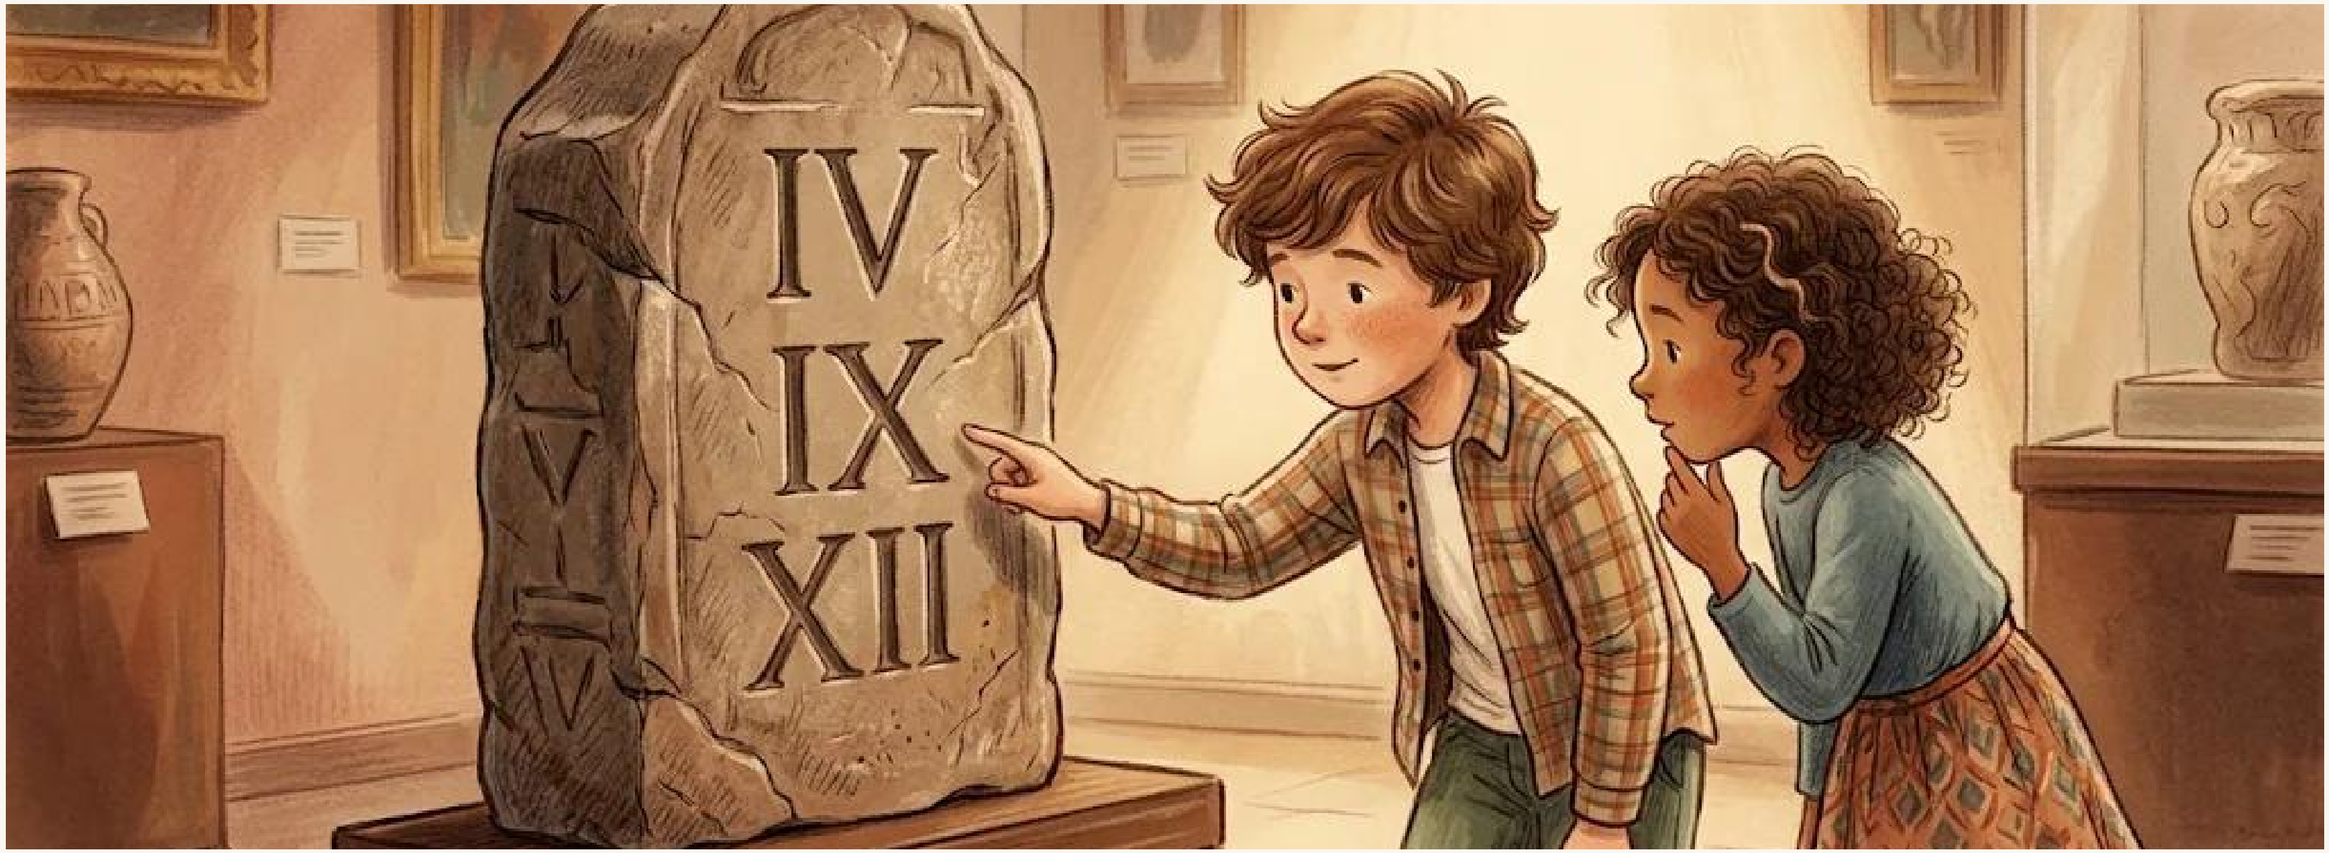

Lan: "Look at that antique clock! Those are Roman numerals."

Minh: "Cool! They show hours like I, V, X instead of normal digits."

Ancient Stone Inscription

Roman numeral • Natural number

Minh: "This stone tablet carves the **Roman numeral** XII."

Lan: "In our **decimal system**, XII equals the **natural number** 12!"

SYSTEM COMPARISON

Decimal System vs. Roman Numerals

Feature	Decimal System	Roman Numerals
Symbols Used	Ten digits (0–9)	Latin letters (I, V, X, L, C…)
Place Value	Yes (Ones, Tens, Hundreds)	No place value
Museum Example	Ticket number 258	Antique clock hours I–XII

VOCABULARY PRACTICE

Complete the Museum Sentences

1. In 479, the digit 4 is in the hundreds place.
2. The place value of 7 in 479 is 70 (tens place).
3. On the clock, IX is a Roman numeral for the natural number 9.

Fill the Gap Exercise

VOCABULARY PRACTICE

Natural number • Digit • Ones place • Tens place • Hundreds place • Place value • Roman numeral • Decimal system

1. A _____ is a number used for counting and ordering, starting from zero (0, 1, 2, 3, ...).

2. In the number 35, both 3 and 5 are each considered a single _____.

3. In our standard math system, the value of a digit depends on its _____ within the number.

4. Natural numbers are typically represented and calculated using the base-10 _____.

5. In the number 428, the digit 8 is in the _____.

6. In the number 428, the digit 2 is in the _____.

7. In the number 428, the digit 4 is in the _____.

8. Symbols such as I, V, X, IV, and IX are used to form a _____.
