LESSON 3 • MATH IN DAILY LIFE

Comparing Numbers at the Park

Join Minh and Lan at the amusement park to learn math comparison words in context.

VOCABULARY ROADMAP

Seven Key Math Terms

1. Compare

Check which value is larger.

2. Greater than (>)

Strictly larger than another number.

3. Less than (<)

Strictly smaller than another number.

4. Greater than or equal (≥)

At least the minimum value.

5. Less than or equal (≤)

At most the maximum value.

6. Predecessor (n − 1)

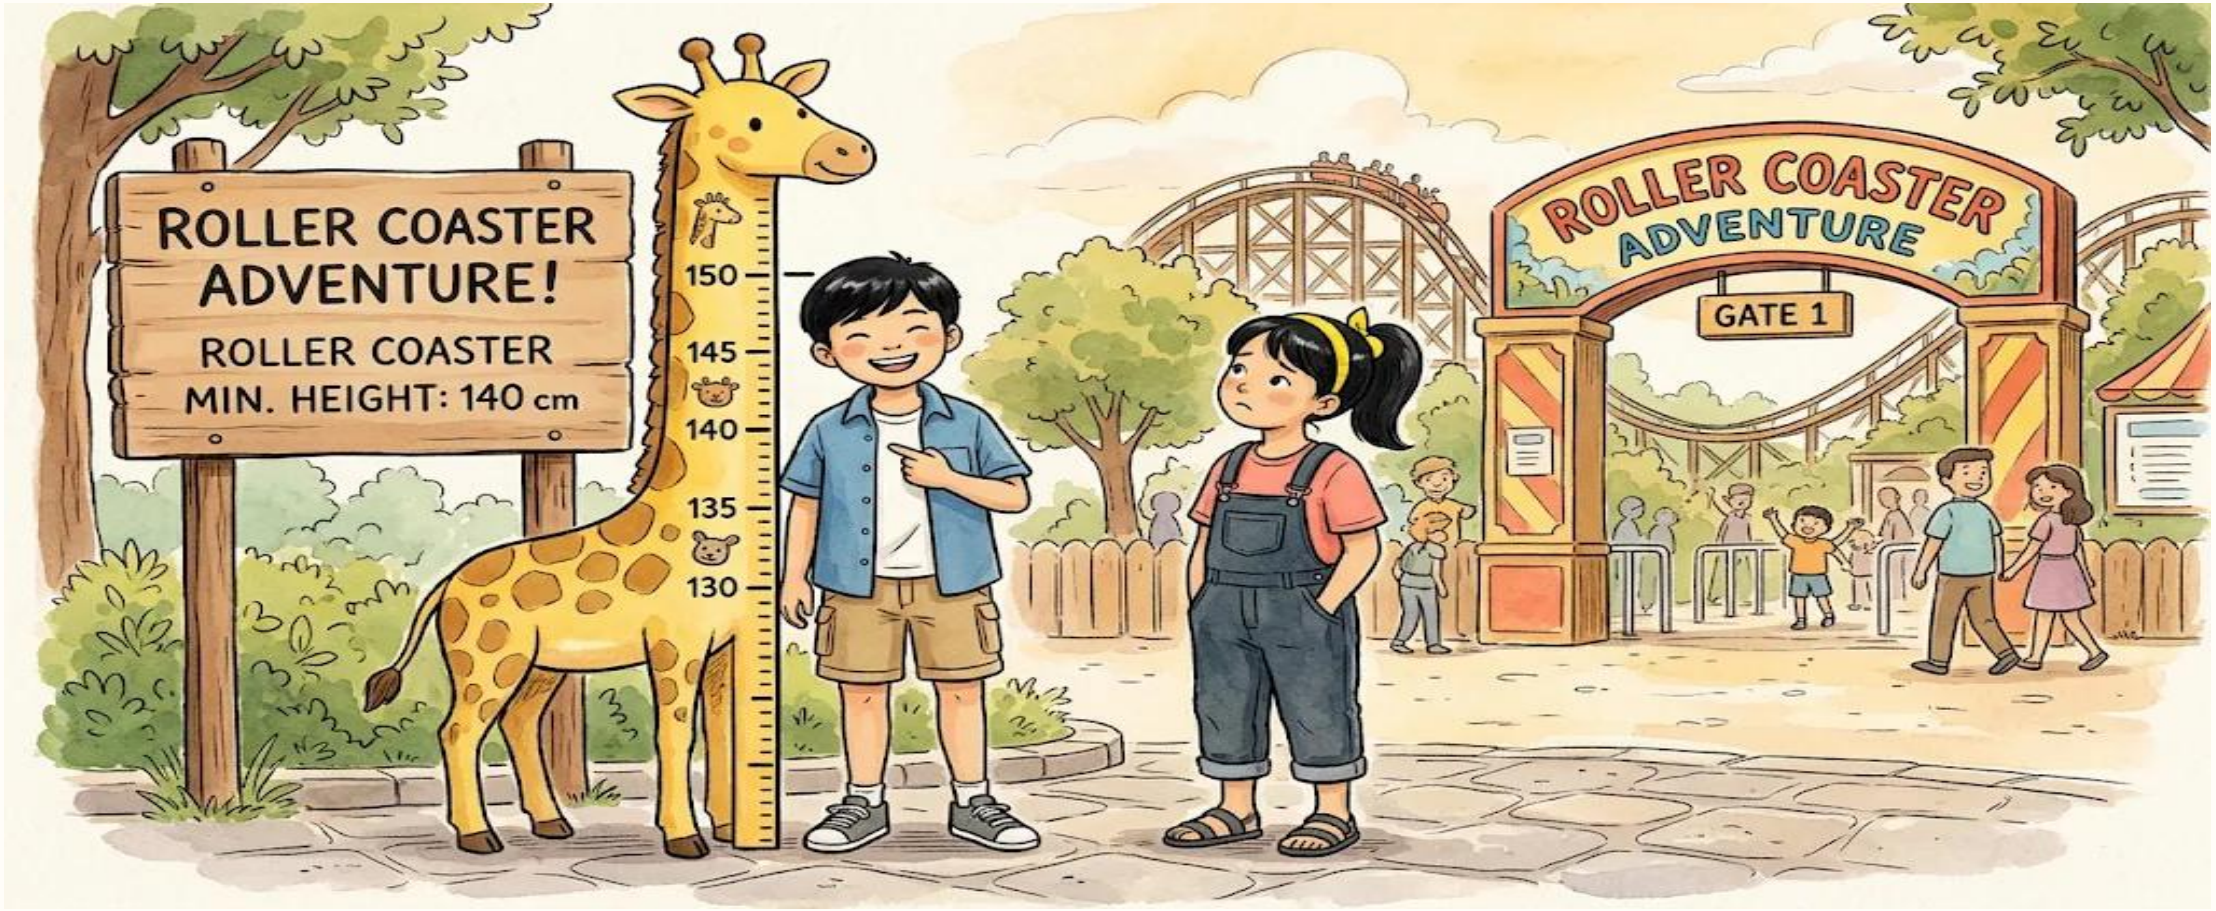

Number immediately before another.

7. Successor (n + 1)

Number immediately after another.

At the Roller Coaster Gate

Compare • Greater than (>) • Less than (<)

Minh: “Let’s **compare** our heights! 150 is **greater than** 140, so I can ride.”

Lan: “Aww, 135 is **less than** 140. I have to wait!”

STRICT INEQUALITIES

Greater Than vs. Less Than

150 > 140

Greater than (>)

- **Symbol:** > opens toward larger value.
- **Park Result:** Minh passes 140 cm requirement.

135 < 140

Less than (<)

- **Symbol:** < points toward smaller value.
- **Park Result:** Lan is below 140 cm limit.

At the Bumper Cars Arena

Greater than or equal to (≥) • Less than or equal to (≤)

Lan: “Look! Height must be **greater than or equal to** 130 cm. I’m in!”

Minh: “And age must be **less than or equal to** 15. Both of us qualify!”

INCLUSIVE INEQUALITIES

Boundary Values Count Too

$$h \geq 130$$

Greater than or equal to

130 cm or taller can enter (135 ≥ 130).

$$a \leq 15$$

Less than or equal to

15 years old or younger qualify (12 ≤ 15).

Finding N

ccessor

Minh: “I’m in seat 7! Seat 6 is its **predecessor**.”

Lan: “Then I’ll take seat 8—the **successor** of 7!”

CONSECUTIVE NUMBERS

Predecessor and Successor of 7

PREDECESSOR (n − 1)

6

Comes immediately before 7.

→

CURRENT SEAT (n)

7

Minh’s seat number.

→

SUCCESSOR (n + 1)

8

Comes immediately after 7.

SYSTEM SUMMARY

Park Comparison Quick Reference

Vocabulary Term	Symbol / Form	Park Example
Compare	**<, >, =**	Compare 150 cm and 135 cm
Greater than	**>**	150 > 140 (Minh rides)
Less than	**<**	135 < 140 (Lan waits)
Greater than or equal to	**≥**	Height ≥ 130 cm
Less than or equal to	**≤**	Age ≤ 15 years
Predecessor	**n − 1**	6 is predecessor of 7
Successor	**n + 1**	8 is successor of 7

FILL THE GAP EXERCISE

Word Bank: Compare • Less than • Greater than • Less than or equal to • Greater than or equal to • Predecessor • Successor

1. We _____ two numbers to see which is bigger.
2. Since 150 > 140, 150 is _____ 140.
3. Since 135 < 140, 135 is _____ 140.
4. Height ≥ 130 cm means _____ 130 cm.
5. Age ≤ 15 means _____ 15 years old.
6. Seat 6 comes before 7, so 6 is its _____.
7. Seat 8 comes after 7, so 8 is its _____.

LESSON 3 COMPLETE

You Mastered Comparing Numbers!

Compare • Greater than (>) • Less than (<) • Greater than or equal to (≥) • Less than or equal to (≤) • Predecessor • Successor
