Class: _____Date:_____

LESSON 1. SETS

1.1. Let S be the set of two-digit natural numbers. Among the numbers 9; 24; 105; 98, which number belongs to set S and which number does not belong to set S? Use symbols to answer.

_____

_____

_____

1.2. Given two sets A = {m; n; p} and B = {u; v}. Among the elements m, k, t, v, which element belongs to set A, which element belongs to set B? Which element does not belong to set A, which element does not belong to set B? Use symbols to answer.

_____

_____

_____

1.3. Write the set C of Vietnamese letters in the word "HÀ NỘI" by listing its elements.

_____

_____

1.4. One year has four quarters. Name and write the set of months in the Third Quarter of the year. How many elements does this set have?

_____

_____

1.5. Given the set M = {n | n is a natural number less than 30 and n is divisible by 6}. Write set M by listing its elements.

_____

_____

1.6. Given the set P = $\{1; \frac{1}{3}; \frac{1}{5}; \frac{1}{7}; \frac{1}{9}\}$. Describe set P by giving the characteristic property of its elements.

_____

_____

_____

1.7. Given the set L = {n | n = 2k with k ∈ ℕ* and k ≤ 5}.

a) Write four natural numbers that belong to set L and two natural numbers that do not belong to set L;

_____

_____

_____

b) Describe set L by giving a characteristic property in another way.

_____

_____
